

Fair use policy

To ensure the fairest way in allocation the available spaces at the holiday home the following procedure shall be followed.

The bookings will be opened for a given time in the first instance. Once we have received all the applications we will issue requested spaces on the following basis,

1. If there is one request for the date you have requested the booking will be allocated regardless of whether you have been last year or not.
2. If two (or more) people want same date and one had peak time last year and one didn't, then we give peak time break to the family than has not previously had a peak holiday.
3. If two or more people who didn't have peak time break last year want peak time date this year then it has to be a Hat Draw (names will be pulled out of a hat in front of an independent witness)
4. Those, including people who had peak time breaks last year can be offered their 2nd or 3rd choices if dates are available (applying the same rules as above)
5. After all applications have been allocated the calendar will then be put out to members once again and then it is first come first served on whatever is left to fill the remainder of the year
6. Whatever availability is left after members have had chance to book will be put out to the general public to fill.
